

AN INNOVATIVE FEDERAL APPROACH TO HEALTH CARE

A

ADDRESS THE TRUE COSTS OF HEALTH RESEARCH

To help drive Canada's competitiveness in the global economy, health researchers need to be supported for the full costs of research. Canada's Research Support Fund helps researchers cover indirect research costs, such as for maintaining modern labs and equipment, hiring administrative support, and paying other administrative expenses.

Over time the support provided by this fund has eroded. Canadian researchers are at a severe competitive disadvantage relative to our peers.

How can you help?

Support Canadian researchers by establishing a minimum floor of 25% funding from the Research Support Fund to cover the indirect costs of research.

RENEW COMMITMENT TO HEALTHCARE INFRASTRUCTURE

The federal government used to play a key role in building and maintaining healthcare infrastructure. But for the last decade, Canadian hospitals and healthcare institutions have been excluded from federal infrastructure funding, even as they have been transforming to meet the evolving needs of patients.

If Canada is to continue providing safe, innovative, high-quality healthcare for its citizens, we must update and upgrade our aging hospital infrastructure.

How can you help?

Allow healthcare organizations to apply directly for federal infrastructure, innovation, and research funding support, per FINA's recommendation in 2017.

Hazards of aging health infrastructure

Weakened Disaster Responsiveness

DECREASED ABILITY TO RESPOND TO DISASTERS (E.G. EXTREME WEATHER)

Risks to Patient Safety

INCREASED PROBABILITY OF ACCIDENTS OR HAZARDS (E.G. HOSPITAL-ACQUIRED INFECTIONS)

Costs to the Environment

INABILITY TO DEPLOY CLEAN ENERGY SOLUTIONS

UNLOCK THE POWER OF DIGITAL HEALTH

The future of Canada's healthcare system depends on our ability as a nation to seize the possibilities presented by digital health. The healthcare community needs stimulus funding to drive growth in the development and adoption of digital technologies in health.

How can you help?

Invest \$100 million over five years through Canada's hospitals to help clinicians and patients develop, evaluate, and deploy innovative digital health platforms.

Benefits of investing in digital health

Cost savings

BETTER USE OF DATA AND ANALYTICS COULD SAVE THE HEALTH SYSTEM

\$10 BILLION A YEAR

Increased productivity

DIGITAL HEALTH SYSTEMS COULD ACT AS A CATALYST, BOOSTING PRODUCTIVITY BY UP TO

\$408 MILLION

Improved health

TREATMENTS HAVE BEEN **RADICALLY IMPROVED** AS A RESULT OF ADOPTING DIGITAL TECHNOLOGIES

WHO WE ARE

HealthCareCAN is the national voice of Canada's healthcare organizations, community and research hospitals across Canada. We represent over 600,000 employees, 8,000 scientists, 60,000 research staff and students, and 45,000 volunteers in the healthcare setting.
