PUBLIC HEALTH AGENCY *of* CANADA

## NEW WEBINAR

# Caring for Syrian Refugee Children

As of February 29, 2016, the government of Canada met a significant milestone, having welcomed more than 25,000 Syrian refugees to Canada. We know that many health care providers are already seeing an influx of Syrian refugee patients, and have questions or wish to share their observations. As such the Public Health Agency of Canada would like to invite you our next webinar on Syrian refugee health: *Caring for Syrian Refugee Children*, featuring presentations from two health professionals, Dr. Tony Barozzino and Dr. Ghayda Hassan.

**MONDAY APRIL 4, 2016 1PM ET**

**Dr. Tony Barozzino** is currently the Director of Community Outreach & Ambulatory Services in the Department of Pediatrics at St. Michael's Hospital in Toronto. His main area of academic focus has been the clinical care of high risk children and youth disproportionately affected by the social determinants of health, including immigrant/refugees in Southeast inner city Toronto.

**Dr. Ghayda Hassan** is a clinical psychologist and professor of clinical cultural psychology at UQAM University in Montreal. She has several research, clinical and community-based national and international partnerships.

This webinar is targeted to a broad audience of public health professionals, health care providers, public health emergency managers, provincial and territorial Ministries of Health, and academics. **Please share broadly.**

**To attend the webinar you need to follow these three steps:**

**STEP ONE:**

Register in advance here:

<https://gts-ee.webex.com/gts-ee/onstage/g.php?MTID=e3def68a043fa6c671b228b10a5a0f469>

Event password: Syria

**STEP TWO:**

You will receive an email confirmation with a personalised link for you to join the webinar and dial-in instructions to join the teleconference to hear the presentations. **Save that email until the day of the webinar.**

**STEP THREE:**

On the day of the webinar, click the link on the confirmation email to watch the webinar. To hear the presentations, **you must dial in to the teleconference number provided.**

*To be removed from our webinar invitation list, reply to this email with your request.*

## \*HELP

To participate in a webinar you will need access to a computer with an internet connection to watch the presentation, and a phone to listen to the presenters.

Space is limited so to be sure you can access the webinar you must register in advance. Click the link provided on the invitation, click **REGISTER** on the webpage, and then enter the required registration information. The link in the invitation is only for registrations - you cannot access the webinar on the day of the event by using this link.

Once you have registered, you will receive an email about how to access the webinar. Be sure to save this email until the day of the webinar. **The email will contain a link so you can access the webinar online, and dial-in information will be provided so you can hear the presentations over a teleconference.**

A webinar may have different call-in numbers for English and French participants. Please make sure you call your language of choice when dialling.

If none of these instructions help and you can't access the webinar you can contact WebEx Technical Support at 1-800-226-6338. Please be sure you have registered before calling. If you have a problem during the webinar you can send a message to the moderator using the chat function on the screen.

We do our best to make sure each webinar is approximately 60 minutes in duration including time for questions and answers.
